Plivo Test and Evaluation

1. Assignment Prerequisites and Evaluation

- Emphasis was placed on the **use of AI tools**, encouraging students to explore and apply relevant technologies.

- Students are expected to submit their assignments through **GitHub repositories**, ensuring version control and transparency.

- Projects should be **hosted on platforms like Vercel**, enabling live demonstration of applications.

2. Submission Process

- The submission process using a **Google Form**.

- This form will be used to collect essential details such as GitHub links, deployed project URLs, and other required information.

- Reminders will be sent periodically to ensure timely completion and submission.

3. Other Announcements

- **Venues RMN** 101,102,201,202 and **CRC** 102,203,204,205

- **PPT+TEST** 7:30 PM to 10:00 PM on August 8.
